

## FOREIGN PRIVATE INVESTMENT IN NIGERIA – 2002

---

### *Abstract*

*The net flow of foreign investment into the Nigerian economy rose by 143 per cent from ₦3,377.0 million in 2001 to ₦8,206.8 million in 2002. As in the previous year, companies of United Kingdom origin accounted for the bulk of the flow in the review period. The cumulative level of foreign direct investment in the country, mainly in Mining and Quarrying as well as Manufacturing and Processing sub-sectors was ₦166,631.6 million. The proportion of paid-up capital plus reserves in total investment was 97 per cent in the review period. The value of total stock of fixed assets in the review period was ₦300,327,757.0 million, indicating a slight increase over the figure in the preceding year. Further analysis showed that, the current reserves for depreciation of fixed assets rose from ₦1,458.8 million in 2001 to ₦1,467.3 million in 2002.*

---

## INTRODUCTION

This report presents the results of the survey on foreign private investment in Nigeria in 2002 which was conducted by the Central Bank of Nigeria in 2003. The survey covered 254 establishments that are either fully foreign owned or are in partnership with Nigerians/Nigerian Agencies or enterprises doing business in Nigeria. A response rate of 44.1 per cent was achieved as questionnaires were retrieved from 112 companies. Statistical adjustments were made for the non-respondents. The analyses of the survey returns are presented in eight parts. In Part I, the flows of foreign investment by regions of origin, components and sectoral distributions are discussed. The cumulative and net foreign investments are analyzed in Parts II and Part III, respectively. Part IV focuses on foreign investment in the Manufacturing and Processing sub-sector by industries and by regions. The cost and book values of the fixed assets of the establishments are examined in Part V, while the cumulative and current reserves for depreciation of these assets are presented in Part VI. The ownership structure and equity of the companies are presented in Part VII, while Part VIII summarizes the report.

## ***PART I***

### **Flow of Foreign Private Investment**

The total net flow of foreign private investment in Nigeria in 2002 increased by 143.0 per cent over the level attained in the previous year. Analysis of the ₦8,206.8 million recorded in 2002 by region or country of origin shows that companies from United Kingdom maintained a dominant share, accounting for 49.1 per cent or ₦4,027.3 million, although this represents a decline from the 79.2 per cent actualized in 2001. The country recorded net inflows from companies from all the countries/regions under classification with the ones from United States of America and Asia improving significantly to record inflows of ₦1,762.0 million and ₦430.2 million or 21.5 and 5.2 per cent of the total respectively. Similarly, net inflows through companies from Western Europe (Excluding UK) and Others(Unspecified) increased by 75.5 and 6.0 per cent, from ₦741.0 million and ₦648.0 million to ₦1,300.3 million and ₦687.0 million, or representing 15.8 and 8.4 per cent of the total respectively (Table 1).

### **Components of Net Flow**

Paid up capital plus reserves comprising Unremitted Profits and Changes in Foreign Share Capital accounted for 80.1 per cent of net capital flow, while other liabilities consisting of Trade and Suppliers' Credit, Other Foreign Liabilities and Liabilities to the Head Office accounted for the remaining 19.9 per cent. The level of Unremitted Profit as a component of net capital flow rose to ₦5,798.7 million or 70.7 per cent in the period under review (Table 2). The bulk of this investment component amounting to ₦3,729.0 million or 64.3 per cent of the total is accounted for by companies of United Kingdom origin. Notably, the level of Unremitted Profit by companies from the various regions increased marginally from the levels in 2001. The changes in foreign share capital revised an outflow of ₦53.4 million in 2001 to register inflow of ₦776.5 million or 9.5 per cent of aggregate net flow with the bulk coming from companies of Western Europe (excluding UK). The trade and suppliers' credit, other foreign liabilities and liabilities to head office components of net flow increased, revising successive outflows to inflows of ₦902.4 million, ₦701.2 million and ₦26.7 million or 11.0, 8.5 and 0.3 per cent respectively in 2002. Companies of USA origin accounted for the bulk of inflow through Trade and Suppliers' Credit and Other Foreign Liabilities components recording inflows of ₦873.6 million and ₦703.9 million respectively.

## **Annual Flow Of Foreign Private Capital**

The flow of foreign private capital into seven economic sectors/sub-sectors, namely: Mining and Quarrying, Manufacturing and Processing, Agriculture, Forestry and Fisheries, Transport and Communication, Building and Construction, Trading and Business Services as well as miscellaneous activities were as follows:

The Manufacturing and Processing sector recorded the largest net inflow of ₦3,642.9 million or 44.4 per cent of total net inflow. This was largely contributed by Unremitted Profit from companies of UK origin amounting to ₦2,204.9 million (26.9 per cent of total). The Miscellaneous economic activities sector recorded the second largest net inflow of ₦2,214.8 million or 27 per cent, with the bulk of the inflow (₦1,482.1 million or 18.1 per cent), also through Unremitted Profits by companies of UK origin. The Trading and Business Services sector recorded a net inflow of ₦1,350.6 million or 16.5 per cent out of which ₦696.4 million was through trade and suppliers' credit by companies of United States of America origin. A net inflow of ₦815.3 million recorded in the Transport and Communication sector was traceable to companies of Western Europe (excluding UK) largely through change in foreign share capital and trade and suppliers' credit from companies of United States origin. A net inflow of ₦110.5 million registered in the Building and Construction sector was largely attributed to companies of Western Europe (excluding UK) through Unremitted Profits and Other Foreign Liabilities. Mining and Quarrying and Agriculture, Forestry and Fisheries sectors registered net inflows of ₦72.8 million and ₦0.014 million respectively (Table 3).

## ***PART II***

### **Cumulative Foreign Investment**

Cumulative foreign investment derived from Tables 2 and 3 is analyzed under two headings. These are: Paid-Up Capital plus Reserves (comprising Unremitted Profits and Change in Foreign Share Capital) and Other Liabilities (comprising Trade and Suppliers' Credit, Other Foreign Liabilities and Liabilities to Head Office).

## Regional Aggregates

The cumulative foreign private investment in Nigeria rose by 2.6 per cent over the preceding year's level to register ₦166, 631.6 million in 2002 (Table 4). Companies from Western Europe (excluding UK) maintained their lead in terms of shares of percentage distribution of total, which however, declined further to 51.8 per cent in 2002 from 53.6 and 52.5 per cent in 2000 and 2001 respectively. The shares of companies from Others (unspecified) increased marginally from 9.4 per cent in 2001 to 10.3 per cent, while that of companies of United States and Asian countries declined from 13.9 and 2.4 per cent in 2001 to 13.5 and 2.3 per cent, respectively, in 2002. The proportion of investment from UK remained fairly constant at 22.1 per cent of the total, a slight increase of 0.3 percentage point from 2001. Aggregate paid-up capital plus reserves rose by 4.1 percent to ₦82, 062.0 million or 49.2 per cent of total, while other liabilities also increased slightly to ₦84, 569.6 million or 50.8 per cent of total in 2002. Companies of Western Europe (excluding UK) origin accounted for 41.6 and 61.7 per cent of aggregate paid up capital plus reserves and other liabilities groupings, respectively in 2002. The level of paid-up capital plus reserves and other liabilities of establishments of the UK origin accounted for the second largest share of N22,168.0 million and ₦14, 673.4 million, respectively, representing 27.0 and 17.3 per cent of the total in each category (Table 4).

## Sectoral Aggregate

The cumulative levels of foreign investment in 2002, was obtained through the addition of the net positions in the review period for each of the major categories of paid-up capital plus reserves and other liabilities to the stock level of 2001. Analysis of the data showed that: Mining and Quarrying, Manufacturing and processing and Miscellaneous economic activities sectors registered the largest percentage distribution of cumulative foreign investment of 37.0, 24.0 and 27.3 respectively in 2002. The cumulative level of investment in Manufacturing and Processing, Transport and Communication and Other miscellaneous economic activities sectors/sub-sectors, increased by 5.8, 81.7 and 4.2 percentage points respectively in 2002, over the preceding year's levels. The significant increase in the Transport and Communications sector was attributed to an increase of 384 per cent in Paid up Capital plus reserves and a 72.5 per cent increase in other liabilities. Of the total of N166,631.6 million cumulative foreign private investment, the share of Building and Construction, Agriculture Forestry

and Fisheries and Trading and Business Services sectors/sub-sectors remained stable at 2.6, 0.7 and 7.4 per cent in 2001 and 2002 while that of Mining and Quarrying declined slightly from 38.2 per cent in 2001 to 37.0 in the review period. Notably, the share of cumulative investment in Transport and Communication increased further to 1.0 per cent in 2002, from the 0.6 per cent of the previous year and away from the 0.5 per cent it recorded persistently for years before then (Table 5).

### **Maturity Pattern Of Other Liabilities**

The level of total liabilities for overseas concerns by foreign companies operating in Nigeria was ₦85,687.1 million, in 2002 representing an increase of 1.3 per cent over the level in 2001 (Table 6). Liabilities up to one year from trade creditors are regarded as short-term or current liabilities, while those exceeding one year, comprising other liabilities and liabilities to head offices are regarded as long-term liabilities. The slight change in the level of cumulative liabilities was traceable to the 0.3 per cent increase in net inflow recorded through long-term liabilities from ₦126,038.7 million in 2001 to ₦126,405.3 million in 2002, and reduced net out payments on current liabilities from ₦41,438.2 million to ₦40,718.2 million. On regional basis foreign liabilities of companies of United Kingdom, United States of America, Western Europe (excluding UK) and Asian origin rose from ₦15,784.9, ₦21,615.6, ₦50,573.9 and ₦1,552.3 million in 2001 to ₦16,224.3, ₦21,428.0, ₦50,949.0 and ₦1,994.9 million representing an increase of 2.8, 0.9, 0.7 and 28.5 per cent respectively in 2002. However, companies of other (unspecified) origin registered a decrease in net out payment from ₦4,926.4 million in 2001 to ₦4,909.0 million in the review period. The total cumulative liabilities of Mining and Quarrying, Agriculture, Forestry and Fisheries sector and Manufacturing and processing sector increased slightly, while that of Building and Construction and Trading and Business Services sectors, Transport and Communication and miscellaneous economic activities decreased.

### ***PART III***

#### **Net Investment**

##### ***Sectoral and Regional Distribution***

A net inflow of ₦8,206.8 million of foreign investment into the country in 2002 came mainly through paid-up capital plus reserves which accounted for 72.9 per cent of total inflow. The country recorded a general increase in investment from the various countries/regions except in the Agriculture, Forestry and Fisheries sector. Companies from United States of America origin recorded a high increase in net inflow while those of United Kingdom (UK) origin and Western Europe (excluding UK) recorded an increased net inflow of 51.7 and 83.0 per cent respectively. Asian companies overturned an out-payment of ₦196.0 million in 2001 to a net inflow of ₦430.2 million in 2002 (Table 7). The Manufacturing and Processing as well as Miscellaneous economic activities sub-sectors recorded an increase of 89.3 and 96.7 per cent in their net inflows. In fact, the Trading and Business Services sub-sector reversed an outflow of ₦28.2 million in 2001 to an inflow of ₦1,349.6 million in 2002. Every other sector/sub-sector of the economy recorded increases except the Agriculture, Forestry and Fisheries sub-sector.

##### **Maturity Pattern of Other Liabilities (Net)**

Other liabilities recorded a net inflow of ₦2,221.8 million in 2002 (Table 7). This is further broken down into current and long term liabilities (Table 8). Current liability refers to indebtedness of one-year maturity or less, while a long-term liability relates to those advances exceeding a year. The result of the survey showed that, long term liabilities (indebtedness) of foreign companies in Nigeria during the period under review stood at ₦302.0 million compared with ₦659.6 million and ₦268.6 million in 2000 and 2001 respectively. However, a substantial inflow of ₦1,919.8 million was recorded in 2002 for current liabilities in contrast to an indebtedness of ₦808.1 million recorded in 2001. On regional basis, the analyses showed that the companies from United States of America accounted for the bulk of the total liabilities as they contributed 71.5 per cent of the total liabilities in the review period, while Asian companies recorded the bulk of the net out payments. However, the out payment by the Asian firms was mainly in the Manufacturing and Processing sub-sector. Companies of USA origin engaging

in Manufacturing and Processing and miscellaneous economic activities of companies of Western Europe (excluding UK) also accounted for a substantial part of the net out payments in current liabilities (Table 8).

## *PART IV*

### **Foreign Investment in the Manufacturing and Processing Sub-sector**

The cumulative foreign private investment in the Manufacturing and processing sub-sector is dis-aggregated into 28 individual groups shown in Table 9 based on the international standard of industrial classification (ISIC). Analysis of the groups is carried out under two investment components: paid up capital plus reserves and other liabilities. The cumulative foreign investment level in the Manufacturing and Processing sub-sector increased by 29.6 per cent from ₦38,795.1 million in 2001 to ₦50,283.9 million in 2002. The proportion of paid-up capital plus reserves in total investment in the sector dropped from 91 per cent in 2001 to 76.0 per cent in 2002. The increase in aggregate investment in this sector was due largely to developments in 24 industrial groupings. The major contributors to the development in the sub-sector in terms of flow of foreign investment includes food product, beverages, textiles, other chemical product, pottery/earthen wares and other non-metal mineral products accounting for 14.6,18.5,10.3,10.9,10.8 and 4.5 per cent respectively. However, tobacco products recorded a declined level of investment of ₦132.7 million with an out payment of ₦123.5 million as other liabilities. The petroleum refineries, miscellaneous petroleum and coal products and rubber products groups recorded the same level of investment as in the previous year. The cumulative investment level in the beverages group and pottery/earthen wares increased by 90.7 and 80.3 per cent from N4,880.9 million and ₦3,025.5 million in 2001 to ₦9,306.1 million and ₦5,453.4 million in 2002 respectively . Furniture and fixtures still recorded an outstanding out payment of ₦2,400.5 million.

### **Net Investment In The Manufacturing And Processing Sub-Sector**

Table 10 presents an analysis of net investment in the Manufacturing and Processing sub-sector industrial groups, while a further break down of the same data by regions of origin is shown in Tables 11-15. Net flow of investment into the Manufacturing and Processing sub-sector decreased from ₦13,307.1 million in 2001 to ₦11,488.9 million

in 2002. Industrial chemicals, plastic products, pottery, china and earthen wares and other manufacturing industries recorded net investment flows of ₦91.7, ₦373.60, ₦2,427.9 million respectively, while tobacco products and wearing apparel registered divestment flows of ₦282.5 million and ₦60.3 million respectively during the review period (Table 10).

A further breakdown of the Manufacturing and Processing sub-sector shows that companies from UK origin recorded an outstanding increase in net inflow (2,252.8 per cent) from ₦105.6 million in 2001 to ₦2,484.6 million in 2002. The increase in net inflow resulted mostly from the increase in paid-up capital plus reserves although other liabilities from companies in the region increased slightly. Capital inflow through paid-up capital plus reserves in other manufacturing industries remained at ₦83.5 million, representing 3.4 per cent of the total investment from the region in 2002 (Table 11). The companies of US origin recorded a net inflow of ₦16.9 million in 2002 as against an outflow of ₦15.4 million registered in the previous year through the paper industry. Paid-up capital plus reserves registered increased outflows (Table 12). Capital inflow occurred in six industries and capital outflow in none, among companies of Western Europe (excluding the UK) as well as in other regions. Of the total inflow of ₦560.4 million, companies involved in food products, printing and publishing and pottery, china and earthen wares accounted for ₦18.7, ₦26.6 and ₦27.2 million, representing 3.3, 4.7 and 4.8 per cent respectively (Table 13). The value of investment by companies of Asian origin in the manufacturing sub-sector increased from ₦5.5 million 2001 to ₦42.8 million. Paid-up capital plus reserves and outflows for other liabilities increased. Companies of this region operating in plastic products maintained net inflow of ₦171.9 (Table 14). Net Capital inflows from other (unspecified) regions stood at N1,563.2 million during the review period. Companies in industrial chemicals and miscellaneous petroleum and coal product retained net inflow of ₦765.7 million accounted for the aggregate net inflow related to the outpayments by miscellaneous petroleum and coal products in the review period (Table 15).

## ***PART V***

### **Fixed Assets**

#### ***Fixed Assets (At Cost)***

The flow of investments in fixed assets (at cost) is presented in Table 16, while Table 17 shows the value of the total stock of fixed assets (at cost). The analysis in Table 17 is further disaggregated by regions in Tables 18-22. The fixed assets considered are real estate (land and building), machinery and equipment, furniture and fixtures, motor vehicles and others (unspecified).

#### **A Net Investment In Fixed Assets (At cost).**

Foreign owned companies in Nigeria added aggregate net fixed assets worth ₦6,458.5 million to the existing stock in the year 2002. Fixed assets worth ₦893.3 million were however written off during the year leaving a net accretion to stock of ₦7,351.7 million. A further analysis of the flow of fixed assets revealed that ₦789.3 million, representing 12.2 per cent of the aggregate net accretion to stock of fixed assets occurred in the Manufacturing and Processing sub-sector. Analysis by components of fixed assets showed that machinery and equipment, furniture and fixtures and motor vehicles had net accretions to the stock of fixed assets of ₦821.7, ₦242.3 and ₦124.8 million, representing 71.6, 21.1 and 10.9 per cent of aggregate net accretion, respectively. Companies of Western Europe (excluding UK) in the Manufacturing and Processing sub-sector accounted for 10.5 per cent of the total addition to stock of fixed assets (Table 16).

#### **B Total Stock of Fixed Assets (At cost)**

The stock of fixed assets (at cost) for all the sub-sectors and the regions are derived by adding the value of assets acquired, less assets retired at cost for 2002 (Table 17). The value of total stock of fixed assets increased marginally by 0.2 per cent to ₦300,327.8 million in 2002. The slight increase was accounted for mainly by manufacturing and processing sector and Miscellaneous component which increased by 0.3 and 1.3 per cent respectively. The stock of other (unspecified) assets however declined from

₦62,258.0 million in 2001 to ₦62,225.3 million in 2002. On Sectoral basis, the Mining and Quarrying sub-sector accounted for the largest share of total fixed assets at cost with a value of ₦162,637.0 million or 54.5 per cent of the total, followed by the Manufacturing and Processing sub-sectors, with ₦75,643.2million or 25.3 per cent. The shares of the other sectors were: Miscellaneous Economic activities (9.1 per cent), Transport and Communications (4.8 per cent) ,Trading and Business Services (4.2 per cent), Agriculture, Forestry and Fisheries (0.2 per cent) and Building and Construction (2.4 per cent) (Table 17). Analysis by components of assets revealed that the stock of machinery and equipment accounted for ₦100,157.0 million or 33.2 per cent of the total stock.

### **C. Value of Fixed Assets (at Cost) by Companies of UK origin.**

Total fixed assets at cost, of companies of UK origin was ₦53,434.3 million, or 18.0 per cent of the total value of fixed assets compared with the 17.8 per cent recorded in 2001. The Manufacturing and Processing sub-sector of UK companies, accounted for ₦44,804.4 million or 86.6 per cent of the total. The other sectors: Agriculture, Forestry and Fisheries, Trading and Business Services and Miscellaneous had assets holdings of ₦143,993, ₦4,086.8 and ₦2,727.2 million, respectively. The value of fixed assets (at cost) in Mining and Quarrying, Transport and Communication, Building and Construction was ₦552.8, ₦73.4 and ₦1,045.7 million respectively (Table 18).

### **D. Value of Fixed Assets (at Cost) by Companies of US origin.**

The value of fixed assets at cost, of companies of US origin was ₦88,538.2 million, representing 29.6 per cent. The Mining and Quarrying sub-sector with fixed assets valued at ₦54,317.4 million, or 61.4 per cent of the total accounted for the highest. It was followed by the miscellaneous economic activities sector, with ₦16,405.3 million or 18.5 per cent of the total from the region. The Manufacturing and Processing and Transport and Communication sectors recorded improved assets holding of ₦12,618.0 million and ₦470.9 million in this region (Table 19).

### **E. Value of Fixed Assets (At Cost) by Companies of Western Europe (excluding UK origin)**

The total value of fixed assets, at cost, of companies from Western Europe (excluding UK) rose marginally from ₦140,118.2 million in 2001 to ₦140,170 million in 2002.

However, the region's share of aggregate value of fixed asset at cost which was 46.7 per cent in 2001 remained at 46.7 per cent during the review period. Within the region, the Mining and Quarrying sub-sector had the highest share valued at ₦107,626.2 million or 76.8 per cent, the same as recorded in the preceding year. Transport and Communication sector followed with ₦13,623.4 million or 9.7 per cent, as in the preceding year. All other sectors retained their previous values except for Miscellaneous sector which rose slightly by 1.9 per cent to ₦2,697.9 million in 2002 (Table 20).

#### **F. Value of Fixed Assets (at Cost) by Companies of Asian Origin**

The total value of fixed assets, at cost, for companies of Asian origin increased from ₦4,834.1 million in 2001 to ₦4,984.4 million in 2002. Real estate recorded the highest value of ₦2,205.5 million. The value of fixed assets, at cost, in the region also increased marginally for Manufacturing and Processing, Trading and Business Services and Miscellaneous economic activities' sub-sectors while it remained unchanged for Transport and Communications and Building and Construction sub-sectors. Mining and Quarrying and Agriculture, Forestry and Fisheries maintained their zero returns. The region's share of aggregate value of fixed assets at cost, decreased to 1.6 per cent from the 2.4 per cent it recorded in 2001 (Table 21).

#### **G. Value of Fixed Assets (at Cost) by Companies from Other Unspecified Regions.**

The total value of fixed assets (at cost) of other unspecified regions increased by 1.6 per cent to ₦1,320.0 million. At ₦6,294 million, Manufacturing and processing sub-sector accounted for 47.7 per cent of the total. The value of fixed assets in Manufacturing and Processing and Building and Construction increased by 0.4 and 3.6 per cent to ₦6,294 million and ₦290.6 million respectively. Assets of the Miscellaneous economic activities sub-sector increased by 3.4 per cent to ₦4,423.6 million and that of Mining and Quarrying rose by 3.4 per cent to ₦140.7 million and transport and Communication rose by 19.4 per cent to ₦159.1 million while Agriculture, Forestry and Fisheries sector remained stagnant (Table 22).

#### **Fixed Assets (At Book Value)**

The aggregate values of fixed assets (at book value) of enterprises covered in this survey are presented in Table 23, while Tables 24-28 show the breakdown on regional basis.

### **A. Total Fixed Assets (At Book Value)**

The book value of fixed assets held by foreign firms operating in Nigeria moved slightly up from ₦236,061.0 million in 2001 to ₦277,813.6 million. Machinery and equipment constituted the largest component accounting for ₦87,468.4 million or 31.5 per cent of the total, while furniture and fixtures, real estate, motor vehicles and other unspecified assets accounted for ₦60,398.1 million, ₦51,650.1 million ₦15,156.4 million and ₦63,140.4 million or 21.7,18.6,18.41 and 22.7 per cent, respectively. On sectoral basis, Mining and Quarrying registered the largest share of ₦159,882.2 million, followed by Manufacturing and Processing, ₦57,302.0 million, and Transport and Communication, ₦28,264.3 million. The three sectors accounted for 88.4 per cent total book value of the fixed assets in 2002. All sectors of the economy recorded slight increases in fixed assets as book value (Table 23).

### **B. Fixed Assets (At Book Value) by Companies of UK Origin.**

Fixed assets, at book value of companies of UK origin amounted to ₦57,651.2 million, representing a marginal increase of 0.1 per cent over its level in 2001 (Table 24). The book value of machinery and equipment, rose from ₦22,381.8 million in 2001 to ₦24,853.7 million and accounted for 43.1 per cent of the total. Other major contributors to the fixed assets, at book value, in the region were furniture and fixtures (16.8 per cent) and real estate (16.2 per cent). The bulk of fixed assets, at book value, valued at ₦57,651.2 million or 68.1 per cent was principally made up by the Manufacturing and Processing sub-sector. Transport and Communications as well as Trading and Business Services sectors accounted for 24.1 and 6.8 per cent of the total, respectively. The value of fixed assets in Trading and Business Services and Mining and Quarrying increased over the level in 2001, while that of Agriculture, Forestry and Fisheries remained stagnant. The book value of fixed assets in miscellaneous economic activities sector remained constant at the negative value of ₦642.1 million, indicating the use of obsolete assets.

### **C. Fixed Assets (At Book Value) by Companies of US Origin.**

At ₦85,674.0 million, the book value of fixed assets belonging to companies of US origin increased by 20.8 per cent. The machinery and equipment as well as furniture and fixtures components accounted for ₦31,048.8 million and ₦30,286.2 million or 36.2 and 35.3 per cent of total, respectively. The real estate component recorded the

least value of ₦2,710.9 million or 3.2 per cent. On sectoral basis, fixed assets at book value of companies of this region were, Mining and Quarrying , ₦63,078.43 million or 73.7 per cent, miscellaneous economic activities ₦15,012.6 million or 17.5 per cent, and Manufacturing and Processing , ₦5,106.1 million or 6.0 per cent. Others were Trading and Business Services sector, ₦2,413.7 million or 2.8 per cent, Agriculture, Forestry and Fisheries , ₦21.41million or 0.03 per cent, and Building and Construction, ₦3.30million or 0.01 per cent). The Transport and Communications sub-sector recorded an inflow of ₦38.5million, a marked improvement from the outflow recorded in the previous year. (Table 25).

#### **D. Fixed Assets (At Book Value) of Companies of Western Europe (Excluding UK) Origin**

The book value of fixed assets of companies from Western Europe (excluding UK) increased to ₦119,350.7 million in 2002. The Mining and Quarrying sub-sector still recorded the largest book value of assets at ₦96,598.9 million or 80.9 per cent of the total. The shares of fixed assets (at book value) in the various sub-sectors were Manufacturing and Processing (4.0 per cent), Agriculture, Forestry and Fisheries (0.5 per cent), Transport and Communication (11.8 per cent), Building and Construction (2.7 per cent) and Trading and Business Services (1.2 per cent). The miscellaneous economic activities recorded an outflow of ₦1,316.3 million in 2002. The book value of other fixed assets was ₦40,024.6 million or 33.5 per cent of the total, while the value of real estate, machinery and equipment, furniture and fixtures and motor vehicles component of fixed assets accounted for 29.5, 19.6, 16.0 and 1.3 per cent of the total book value of fixed assets in the region, respectively (Table 26).

#### **E. Fixed Assets (At Book Value) by Companies of Asian Origin.**

Fixed assets, at book value, by companies of Asian origin increased from ₦2,682.2 million to ₦6,012.9 million in 2002 (Table 27). The activities of the firms in Mining and Quarrying, Manufacturing and Processing and miscellaneous economic activities sectors accounted for the large increase, especially in the Mining and Quarrying sector where fixed assets rose from a nil value to ₦2,748.5 million with Trading and Business Services, which recorded net decline in outpayments (negative book value) in 2001 reflecting a positive figure of ₦23.5 million. Agriculture, Forestry and Fisheries sectors retained its zero returns. However, the book value of real estate, furniture and fixtures

and motor vehicles and Others, increased significantly, while machinery and equipment component which had recorded a decline in outpayments in 2001 had a figure of ₦508.9 million in 2002.

#### **F. Fixed Assets (At Book Value) by Companies from Others unspecified Countries/Regions.**

The book value of fixed assets of companies from other unspecified countries/regions increased to ₦12,260.3 million. The book value of machinery and equipment, increased by 50 per cent to N 8,591.6 million and accounted for 70.1 per cent of total book value of fixed assets in the region. The sectoral analysis showed that fixed assets in the Mining and Quarrying, Manufacturing and Processing, Transport and Communications sub-sectors increased from ₦136.6, ₦4,385.2 and ₦114.6 million in 2001 to ₦205.0, ₦6,577.8 and ₦171.9 million in the review period, representing increases of about 50 per cent, respectively. However, Building and Construction sub-sector, reduced its negative book value (outpayments) from ₦131.7 million to ₦46.7 million in the review period (Table 28).

### **PART VI**

#### **Reserves for Depreciation**

Cumulative reserves for depreciation increased by 3.4 percent from ₦86,872.7 million in 2001 to ₦89,830.4 million. The increase was shared by all the components of fixed assets in the period under review. Machinery and equipment accounted for the largest share of 40.1 per cent of the total. The ratio of cumulative reserves for depreciation to the value of fixed assets at cost, increased from 29.0 per cent in 2001 to 30.0 per cent in 2002. A sectoral analysis revealed increase in cumulative depreciation in all the sectors. Mining and Quarrying and Manufacturing and processing sectors accounted for 45.2 and 32.5 per cent of the total cumulative depreciation respectively (Table 29).

#### **A. Current Reserves for Depreciation**

The amount of current reserves for depreciation of fixed assets increased slightly from ₦1,458.8 million in 2001 to ₦1,467.3 million in 2002. All the components of fixed assets accounted for the increase. Sectoral analysis showed that the Manufacturing and

Processing sub-sector recorded the largest reserves for depreciation of ₦1,337.4 million, representing 91.1 per cent of the total. All the sectors and sub-sectors of the economy recorded increases in current reserves for depreciation, compared with the preceding year's level (Table 30).

#### **B. Current Depreciation as Percentage of Fixed Assets (At Cost).**

The proportion of current reserves for depreciation to the value (at cost) of fixed assets increased from 11.6 per cent in 2001 to 16.5 per cent. Manufacturing and Processing and Building and Construction sub-sector recorded a decline in their proportions. A dis-aggregation by components of assets, revealed that the proportions stood at 24.8, 18.8, 49.7, and 33.9 per cent for real estate, machinery and equipment, furniture and fixtures, and motor vehicles respectively. Only the "others" components registered a decline in current depreciation as percentage of fixed assets (at cost) (Table 31).

### ***PART VII***

#### **Ownership Structure And Equity**

##### **A. Cumulative Share Capital.**

The survey revealed that the cumulative paid-up capital (excluding reserves or unremitted profits) in all foreign-owned or joint venture companies operating in Nigeria increased by 0.2 per cent from ₦64,766.8 million in 2001 to ₦77,720.1 million in 2002. Common stock held both locally and by overseas investors amounted to ₦23,650.7 million in 2002 compared with ₦19,708.4 in 2001 (Table 32). Aggregate foreign share capital was valued at ₦23,668.6 million in 2002, representing 30.5 per cent of the total share capital, as against ₦19,723.8 million of the total share capital in 2001. The observed increase in foreign share capital was due to fresh capital injected into various sectors of the economy. The bulk of the shares were in Manufacturing and Processing, Mining and Quarrying and miscellaneous economic activities. The share of non-resident shareholders in total foreign share capital remained at 7 per cent, its level since 1998.

## **B. Component of Changes in Foreign Share Capital**

A further dis-aggregation of changes in foreign share capital revealed that expatriates' equity increased by 50.0 per cent to ₦22.4 million in 2002, from ₦14.9 million in 2001. The increase was attributed to the increase in parent/affiliated investors from ₦14.2 million in 2001 to ₦21.3 million in the review period. Sectoral analysis showed that new capital was injected into the Manufacturing and Processing, Mining and Quarrying, Building and Construction and miscellaneous economic activities sub-sectors. Agriculture, Forestry and Fisheries, Transport and Communications and Trading and Business Services sub-sectors however, retained their zero returns (Table 33).

## ***PART VIII***

### **Summary And Conclusion**

The net flow of foreign private investment in Nigeria in 2002 was ₦8,206.8 million. The survey data showed that unremitted profit mainly through companies of United Kingdom origin accounted for the bulk of the inflow. The netflow of companies in the region rose to ₦4,027.3 million from a figure of ₦2,675.0 million recorded in 2002. Total investment also increased for companies of other unspecified origin from ₦648 million to ₦687.0 million in the review period. The survey further revealed that the level of cumulative foreign private investment in the year 2002 was ₦166,631.6 million, indicating an increase of 2.64 percent over the level in 2001. The increase was reflected mainly in the contribution of companies of United Kingdom origin and others (unspecified), whose shares rose from 21.8 and 9.4 per cent in 2001 to 22.1 and 10.3 per cent, respectively, in the review period. However, companies from Western Europe (excluding UK) maintained their lead, accounting for 51.8 per cent of the cumulative investment during the year 2002. Activities of foreign investors in Manufacturing and Processing and Miscellaneous economic activities sectors intensified during the period. The share of aggregate investment in these sectors increased from 23.4 and 27 per cent in 2001 to 24.0 and 27.3 per cent, respectively, in 2002. The cumulative foreign debt profile of foreign establishments operating in Nigeria grew further to ₦84,687.0 million from ₦84,600.5 million in 2002 due to increased long term liabilities. Net investment in fixed asset (at cost) in 2002 was ₦8,205.4 million. Manufacturing and Processing accounted for 44.4 per cent of new fixed assets acquired during the review

period. The value of total stock of fixed assets at cost, increased by 31.5 per cent to ₦6,458.5 million, while the book value increased by 17.7 per cent to ₦277,813.6 million in 2002. The result of the survey showed that cumulative reserves for depreciation rose from ₦86,872.7 million in 2001 to ₦89,830.4 million in 2002. Similarly, the cumulative paid-up capital (excluding reserves or unremitted profits) in all foreign-owned or joint venture companies operating in Nigeria increased by 20.0 per cent from ₦64,766.8 million in 2001 to ₦77,720.1 million in 2002.
